PEONIES AND "SAFETY FIRST"

When you order from this list you may feel absolutely safe against any unhappy result, because we have allowed nothing in it except the very choicest kinds.

You surely want Peonies, because no other flower approaches them for hardiness, freedom of bloom, fragrance, usefulness as cut-flowers and immunity from attacks of insects and disease.

We have exceptional facilities, not only for testing them on our own good soil here, but also for making critical examinations of some of the finest collections grown, thus enabling us to select for our customers the kinds which leading specialists agree are without rivals, so order freely and feel safe.

WE ARE MEMBERS OF THE
AMERICAN PEONY SOCIETY

Peony Culture

Peonies will grow anywhere—reasonably speaking. They thrive in partial shade, but best results are obtained when they are planted in deep, rich soil about 2 inches below the surface and have a sunny location. Plenty of water during the growing season is an added stimulus, and if liquid manure is applied at intervals of ten days, the grower will be amply repaid for his trouble in the increased size and coloring of the flowers.

FOUR LEADING PEONIES

Mons. Jules Elie. Large and full; glossy pink. This is spoken of as the King of all Peonies. Blooms are very large and deliciously fragrant. \$1 each, postpaid.

Couronne d'Or. White, with yellow reflection; red blotch on central petals. 50 cts. each, postpaid.

Felix Crousse. An especially choice, brilliant red; vigorous grower, free bloomer and slightly fragrant. 75c. each, postpaid.

Festiva maxima. For over fifty years this has been the standard of perfection in Peonies. The immense, perfectly double flowers are pure snow-white, with a beautiful flake of carmine in the center. 50 cts. each, postpaid.

★OFFER★ 2 The above 4, selected for all-round satisfaction, for \$2.25, postpaid.

FIVE GRAND PEONIES

DUCHESSE DE NEMOURS. Guard petals white, center lemon-yellow, with greenish reflex; very prolific and when half open is most exquisitely chaste. 45 cts. each, postpaid.

EDULIS SUPERBA. Beautiful clear pink, with silvery reflex; very fragrant. *It blooms in time for Memorial Day.* 45 cts. each, postpaid.

MME. DE VERNEVILLE. Immense bloomer; sulphur-white, with carmine-tipped central petals. 45 cts. each, postpaid.

MARIE LEMOINE. Immense flowers, often 8 to 10 inches across. Ivory-white, with occasional narrow carmine tracing on the edge of some petals. 45 cts. each, postpaid.

GRANDIFLORA. Bright shell-pink, overlaid with delicate lilac and salmon-pink. 45 cts. each, postpaid.

★OFFER★ 2a Above 5 excellent kinds, all different, delivered for \$1.75.

★OFFER★ 2b 9 Peonies, including 1 each of all above, delivered for \$3.75.

Peonies as Cut-flowers. Fragrant and Decorative for Stately Hall or Humble Home

NOTE.—If wanted for cut-flowers, Peonies should be cut while in bud, just as the color begins to show. They keep longer thus than if flowers open on the plant.

"A friend told me, not long ago, that she had counted sixty blossoms upon each of several of her [Peony] plants."—Page 41 in "A Woman's Hardy Garden," by Helena Rutherford Ely.

PEONY OFFICINALIS

These are the real old-fashioned Peonies of our grandmothers' days. They bloom earliest of all. The flowers are large, full, double and fragrant. Three varieties:

Alba mutabilis. Blush-white.

Rosea superba. Bright rose-pink.

Rubra (Atrorubens plena). Brilliant, glowing deep crimson.

25 cts. each, postpaid

★OFFER★ 2c The above 3 Peonies for 65 cts., postpaid.

The Peonies you shipped me last fall were all a success and are growing finely.—J. F. D., Erie, Penna.

SPECIALY SELECTED FOR HOUSE CULTURE AND BEDDING

Every Hyacinth bulb we send out has the blossom already formed inside it. By regulating the culture (see directions with each order) you can have a beautiful display of bloom for Christmas or other special occasions—splendid for table, window or mantel decoration—they remain beautiful a long time. Beds on the lawn in the early spring are exquisite. Plant now.

The figures 1, 2, 3 and 4 after the name of the Hyacinth indicate the relative time of flowering—the 1's flower together and are the earliest; No. 4 the latest.

HYACINTHS IN SEPARATE COLORS

Our Fine Selected Hyacinths in Separate Colors are good-size, well-matured bulbs, sold at low prices and specially recommended for bedding and also for winter blooming in the conservatory and window garden, when the higher-priced kinds are not desired. They give excellent satisfaction.

We have given these Hyacinths a thorough trial in our proving beds year after year, and we find by experience that for outside planting the best results are obtained from the single varieties, as the spikes are always clothed with well-formed florets and are generally larger than the double varieties. As many of our customers prefer the double flowers, we offer first-class, well-matured bulbs of both kinds.

HOW TO GROW BEAUTIFUL HYACINTHS

In the Open Ground

Plant in the fall 6 inches apart each way and 3 to 4 inches deep. Give them slight protection over winter, and in the spring, after the flowers are gone, the bulbs may be removed in time to set your summer-flowering plants.

In Pots or Window Boxes

Plant the bulb in the pot so that its crown just shows, then set away in a cool, dark place for six weeks or two months for root-growth to develop. After this, bring gradually to the light, heat and air; give plenty of water.

In Glasses

Set the bulb so that the lower end merely touches the water. Put away in a cool, dark place till the roots nearly touch the bottom of the glass, then remove gradually to the light and keep the water cool always.

EARLY-FLOWERING ROMAN HYACINTHS

ROMAN HYACINTHS are very easy to grow, need no special treatment, and are absolutely sure to bloom. They are very desirable for winter flowering in the house and begin to bloom very quickly. The delicious perfume and profusion of bloom have made these Hyacinths very popular. The bulbs are hardy and can be planted in the open ground if given slight protection.

Prices (all except Single Canary-Yellow), 5 cts. each, 12 cts. for 3, 45 cts. per doz., \$3 per 100, postpaid.

4-25-'14.

For three years I have grown the famous White Italian Hyacinth and when in bloom my home is a dream of beauty and sweet fragrance. To me this is one of the most cherished of all flowers.

Mrs. J. C., Campellsburg, Kentucky.

pot

As good
as a room
full of sunshine

C. & J. Crocus are the Improved Strains, noted for large flowers and brightest colors. They are entirely hardy, and like a rich, dry soil and sunny location. They are suitable for planting in beds and borders, also for edging in ribbon lines of any desired color; for planting in the grass in lawn or yard. Crocuses are also very highly valued for house culture.

"Plant your Snowdrops in September;

Scilla, Snowflake, Crocus too;

If you wait until November

These won't wake so soon for you."

Plant the Crocus 2½ inches deep in the autumn. They look especially well scattered over the lawn as in this picture

What Flower Can Compare with the Stately Lily?

THE TRUE BERMUDA EASTER LILY (Lilium Harrisii)

Bermuda Easter Lily

This is one of the grandest and most beautiful Lilies ever seen, and the best of all for winter flowering in pots; it grows easily and is sure to bloom. The flowers are pure snow-white, very large and fragrant, and borne in splendid clusters, six or eight at a time. Vast numbers of these splendid Lilies are grown for church and house decorations every year. Plant in a pot or box which is at least 6 inches deep and well drained; good, turfy soil with a little old, well-rotted manure is best; the bulb should be covered about 1 inch deep; firm the earth well around it, water thoroughly and set away in a cool place three weeks or more till the roots begin to start, then bring to the light—the window of an ordinary living-room is about right. They require moderate heat, with plenty of sunshine and water, and should bloom about three months from time of planting. We offer 3 sizes. Ready in August.

THE MADONNA LILY

(Lilium candidum) See cut, page 17

Also known to many as the Annunciation Lily. It is most popular for garden planting on account of its deliciously fragrant, pure white, perfectly formed flowers, which come on strong, upright stems. To succeed with it the bulbs should be planted early in the autumn to enable them to become established before frost. Dust the bulbs lightly with powdered sulphur, and do not cover with more than 2 inches of soil. 15 cts. each, 3 for 40 cts., 12 for \$1.50, postpaid.

LILY-OF-THE-VALLEY

READY IN NOVEMBER, ORDER NOW

Its deliciously fragrant sprays of pure white, bell-shaped flowers, that hang in great profusion from slender stems, are most suitable for cutting, and, as it lends itself to winter forcing, it is grown in great quantities for the holiday trade. It is perfectly hardy, does not object to shade, and when colonized in large patches in partially shaded places it will increase and care for itself for years. Strong, flowering roots, 3 for 15 cts., 12 for 50 cts.; 1 bundle, 25 roots, 75 cts.; 100 roots for \$2, delivered free in U. S. A.

SIZES VERY MUCH REDUCED

THE BEST HARDY LILIES

These beautiful Lilies are quite hardy. Plant them 4 to 5 inches deep, and give them a light covering of leaves or litter before the ground is deeply frozen. They should be left to grow on from year to year.

Most Lily bulbs, being of late maturity, are not ready before October and November—the best time to plant them. Prepare your ground early and cover to prevent freezing until bulbs arrive. Order now.

AMARYLLIS

QUEEN OF WINTER-
FLOWERING BULBS

CULTURAL DIRECTIONS. Amaryllis require very little soil, therefore you should use pots a very little larger than the bulb and, when planting, leave the neck of the bulb exposed. Do not repot until there is danger of the bulb bursting the pot, and then give just one size larger. Amaryllis bloom all the better for being cramped. When growing well and bloom is forming, it helps the flower if you water with liquid manure or weak plant-food, "Bon Arbor." (See p. 26.)

Amaryllis, Giant Hybrids of Vittata

AMARYLLIS, Hybrids of Vittata. (See cut.) The grandest Amaryllis yet known. These impressive giant flowers, unique in their brilliant colorings, are almost twice the size of an ordinary Amaryllis and so durable that they retain their beauty for weeks. Splendid bulbs, sure to bloom, 75 cts. each, postpaid.

PINK AMARYLLIS, or Belladonna Lily. Lovely rose-pink, finely penciled with silvery white and deliciously perfumed. 20 cts. each, postpaid.

AMARYLLIS EQUESTERIS, or Gloriosa Lily. Bright, flashing orange-scarlet, with exquisite green-and-white star in the center. 15 cts. each, postpaid.

AMARYLLIS JOHNSONII. Extra-large. Deep red, elegantly striped with white. 35 cts. each, postpaid.

QUEEN MARY, or Double White Amaryllis (*Ismene calathina*). Pure snow-white and deliciously fragrant. 20 cts. each, postpaid.

AMARYLLIS HALLI (*Lycoris squamigera*). Delicate lilac-pink, shaded with clear blue. The foliage dies down in July, after which the masses of bloom spring up as if by magic. Plant them in the hardy border in the fall. 20 cts. each, postpaid.

➤**OFFER**➤ **18** 1 each of the 5 varieties of Amaryllis (omitting the 75-ct. one), only \$1.

➤**OFFER**➤ **18a** 1 Amaryllis Halli, 1 Amaryllis equestris, and 1 Amaryllis Belladonna, 3 for 40 cts., postpaid.

THE BLUE AFRICAN LILY

(*Agapanthus umbellatus*)

The flower-stalks grow 15 to 18 inches high, and the flowers open in succession for several weeks; the color is bright, rich blue, very showy and attractive. 25c. each, 3 for 65c., postpaid. Ready in November.

GUERNSEY LILY (*Nerine Sarniensis*)

Very fine for autumn and winter flowering, throwing up stems from 18 to 24 inches, bearing large, lily-like flowers of brilliant crimson which, in the sunlight, glisten as if sprinkled with gold dust. 25 cts. each, 3 for 65 cts., postpaid.

CALLA LILIES

Beauty of Rosemawr

We offer here the choicest kinds for winter blooming indoors or under glass, and when winter is over, you will find them just the right kind to plant out in your garden for summer bloom. These Roses are all strong, repotted plants, in best condition to bloom quickly and give plenty of lovely buds and flowers all winter. When sent by mail we pay postage; but it is better to have them shipped by express, so that the earth can be left on the roots. We prepay express charges when orders amount to \$5 or over. See order sheet.

READ THIS:

29588-13

Sept. 12, 1913.

Gentlemen:—I take pleasure in notifying you that I have received the Rose plants, and in opening the box was overjoyed as I scented the buds and open flowers. After the pleasant work of potting, I had my family to see them, and they were simply delighted, particularly over their fresh condition.

Very truly yours,

M. G., Brooklyn, N. Y.

Mlle. Helena Gambier

WM. R. SMITH. The flowers are large, full and double and most exquisitely formed. The petals are so firm they look like wax, softly curled, colored creamy pink with flesh-tint tips, buff yellow base and center a heart of pink. This is a Rose we cannot praise too highly. 20 cts., ppd.

MLE. HELENA GAMBIER. Color is lovely canary-yellow, with deep peachy red center, changing to creamy pink as flowers open. Blooms are large, double and sweet. (See cut.) 20c., ppd.

PINK MAMAN COCHET. The flowers are of enormous size, very full and of great depth and substance. Color, rich coral-pink, elegantly shaded with rosy crimson; has broad, thick, shell-like petals and makes superb, long-pointed buds; deliciously sweet. (See cut.) 20 cts. postpaid.

MARIE VAN HOUTTE (The Gem). Variegated. Flowers are extra large, very double, full and deliciously sweet-scented. The color is a lovely canary-yellow passing to creamy white, and beautifully shaded with rich pink. 20 cts., ppd.

ARCHDUKE CHARLES. A very free-blooming, rich red Rose, with full-double, fragrant flowers. Color is especially fine. 20 cts., postpaid.

ORLEANS ROSE. This variety blooms continuously and is considered the best Polyantha in its color, which is brilliant red, shaded rose, with white center. 20 cts., postpaid.

BEAUTY OF ROSEMAWR. Flowers are large, delightfully fragrant, and perfectly double, with fine, overlapping petals and raised center; color a lovely shade of rich carmine-rose, finely veined with creamy white. (See cut.) 20 cts., postpaid.

Price for all above, 20 cts. each, or \$2 per dozen, postpaid

Hardy Climbing Roses for Fall Planting

You can cover any reasonable-sized trellis in two years if you use our vigorous, well-rooted, 2-year or 3-year-size Roses to start with and plant now.

American Pillar. Introduced by the Conard & Jones Company. The grandest single, hardy Climbing Rose known. In wealth of bloom it stands unequalled, producing, as it does, immense masses of radiant pink blossoms. The foliage is superb at all times, and canes grow 20 feet in one season. This Rose is enthusiastically praised by all who see it. Hardy everywhere. 2-year size, 50 cts.; 3-year, \$1 and \$1.50, by express.

Thousand Beauties. This Rose is almost thornless and produces masses of perfectly formed flowers of every imaginable shade, from white to deep pink. (See cut below.) 2-year size, 40 cts., by express.

Dr. W. Van Fleet. A well-established plant will produce hundreds of long-stemmed blooms for cutting. Color is soft flesh-pink. The foliage is attractive, glossy and insect-proof. 2-yr. size, 50c.; 3-yr. size, 75c. and \$1, by exp.

Gentlemen—This year, while a generally favorable year for Roses, has been a record breaker from my own standpoint, and my Roses, practically all procured from your Company within the past four years, have yielded an abundance of blooms seldom seen outside an English Rose-garden. While I can scarcely speak of one without discriminating against another, yet I do feel that I must vent some of my enthusiasm upon the wonderful Climber, Dr. W. Van Fleet, purchased four years ago, which was crowned with such a wealth of beautiful buds and Roses that to say it has created a sensation in this neighborhood is putting it mildly, and I feel like saying that your description of this Rose is exceedingly modest, to say the least. I inclose a small photograph taken of our Climber when it was at its best. Your Roses have given us wonderful satisfaction, and I have thought it may be some satisfaction also to you to know it. Very truly yours,

MILTON B. MISHEY, MT. JOY, PA., July 1, 1914.

OFFER 31 2 Roses—Dr. Van Fleet and Excelsa. (See cut.) 2-year field plants, 75 cts.; 3-year field plants, \$1.25, by express.

ROSE, PERSIAN YELLOW

(SEE BACK COVER)

This beautiful buttercup-yellow Rose was introduced in 1838, and up to the present time has not been superseded by any of the newer introductions. It makes a beautiful bush, with small, dainty leaves that do not seem to be affected with disease at any time, and the young shoots have the delicious, spicy fragrance of the Sweetbriar. At blooming time the plant is covered with medium-sized, deep yellow flowers and buds, the flowers when open having an attractive flake of carmine in the center. When pruning cut out the dead wood only and do not trim the growth of the previous year on which the new blooms will form in great abundance. Price: 2-yr. 50 cts., Star-size 75 cts., by express.

FORSYTHIA, GOLDEN BELLS

**BLOOMS
IN APRIL**

The First Shrub to Flower in the Spring

Grace and beauty are combined in this charming, hardy flowering shrub that thrives in almost every soil. Gay festoons of brilliant yellow blossoms in long, slender sprays practically cover the slender branches. They bloom among the earliest in the spring and produce a most cheerful effect on your lawn when other shrubs are brown and still in their winter sleep. Plant this fall. Price: 1-yr. 15 cts., postpaid; 2-yr. 35 cts., or 3 for \$1, by express.

DAFFODIL, GLORY OF LEYDEN

(SEE FRONT COVER)

Called "The King of the Daffodils." Massive flowers of great substance, deep, rich, golden yellow. Splendid for massing and for pot culture. A bed of these beauties in bloom, with a background of bright Forsythias, indicates that spring has surely come. Glory of Leyden is perfectly hardy and increases rapidly. 12 cts. each, 35 cts. for 3, \$1.25 per doz., \$9 per 100, postpaid.

➤OFFER➤ 36 9 splendid Glory of Leyden Daffodils and 1 strong plant (1 yr.) of Forsythia for background, \$1, postpaid.

YOU'LL ENJOY CROCUSES

Violet, Purple, Yellow, Striped, White

(SEE PAGE 15)

Early in April you can count upon every one of these odd color jewels piercing through the sod, to lie sprinkled over the grass like a fallen rainbow of color. Try planting a rainbow—or for bordering beds they're good. Just stick them in the ground early this fall, plenty of them. In the spring they'll respond like obedient children after a good night's sleep.

➤OFFER➤ 36a 100 Mixed Crocuses and 25 beautiful Daffodils, our selection, for only \$1, postpaid.

Illinois Self-Watering Flower Boxes

ALWAYS NEAT AND SATISFACTORY—EVERY ONE GUARANTEED NOT TO LEAK

The boxes are made of heavy galvanized iron, which is painted an attractive green, and are provided with a self-watering device which renders attention unnecessary, except at intervals of from ten to twenty days. Through the tube in the corner water is poured into the reservoir (e) underneath the false bottom (d) which supports the soil (b).

Patented Jan. 29, 1907, June 22, 1909

Sponges (cc) touch the extreme bottom of box and extend upward into the soil in which the flowers are planted, thus supplying water by sub-irrigation.

Careful trials have proved that plants treated this way thrive much better, blooms will be larger and foliage heavier, than in ordinary surface-watered boxes.

Customers living west of the Mississippi River who wish these boxes delivered free will kindly add 30 per cent on orders amounting to less than \$5, or 20 per cent on orders amounting to \$5 or more. To all others in the United States we prepay express charges on orders amounting to \$5 or more, when cash accompanies order.
